Computhink Named “Best Channel Vendor 2009”

Lombard, IL, January 5, 2009 – Computhink, Inc., a leader in providing Document and Content Management Solutions to small to mid-sized (SMB) organizations, today announced their recognition as a “Best Channel Vendor” in the January 2009 issue of *Business Solutions* magazine. The award was for the ECM and Data Capture Software category, in which Computhink ranked higher in average score than its main competition.

Results were tabulated by averaging ratings given in the following seven categories: Service/Support, Channel Friendly, Channel Program, Product Features, Product Reliability, Product Innovation, and Adequate Value-Added Reseller (VAR) Margins. The survey was conducted on the Web, which allowed for a staggering 17,771 votes to be cast. In partnering with Penn State University, *Business Solutions* collected votes from VARs over a one-month period in mid-September through early October, 2008.

“We pride ourselves on our efforts to provide our channel with all necessary tools to thrive in ECM sales,” said John Stelmach, President/CEO of Computhink. “This recognition comes directly from the VARs with whom we’ve worked so hard to succeed and is proof that our methods are working and will continue to be successful. As 2009 progresses, we look forward to continually improving our program to stay ahead of the pack.”

The flexibility of Computhink’s ViewWise Document Management Solution can be directly credited for the well-deserved satisfaction with Computhink’s Channel Program. Through the use of its Application Enabler, ViewWise is able to integrate with almost any software program, which yields a popular selling tool. In addition, competitive pricing, a dedicated marketing team, and other product features such as Workflow, Email Archival, Front End Capture, Electronic Signature (Signwise) will continue to keep ViewWise and Computhink atop the industry.
