**Computhink Releases Service Pack 3 (SP3) for ViewWise 5.6**

**Chicago, IL – April 3, 2006** - Computhink, Inc., a leader in Integrated Document Management (IDM) and Email Archival Solutions, has announced the release of the latest service pack, Service Pack 3, for their flagship product ViewWise. Frank Wasti, Vice President of North American Sales and Marketing, made the announcement.

“On behalf of the entire Computhink Product Group, we are very pleased to announce the availability of Service Pack 3 (SP3) for ViewWise 5.6. We feel this service pack shows our continuing efforts to address the needs of our customer base and further solidifies our product offerings”

**Service Packs**

Service Packs contain all critical bug fixes and quality enhancements and combine all bugs fixes issued since the last Service Pack or major product release version. Service Packs may also contain a small number of critical customer-driven feature enhancements. All Service Pack Modules are accompanied by Release Notes and all product changes in Service Packs are identified in the Release Notes to ease adoption. Details regarding service packs may also be found on the support portion of the Computhink website <http://support.computhink.com>.

**Certifications in SP3**

All platform combinations certified for 5.6 SP2 carry forward to SP3. In addition, in keeping with our published vendor support policy, we may now support more recent point and service pack versions of our dependent platforms. Please check the release notes of each ViewWise Module product for applicable details.

**Customer Feedback in SP3**

ViewWise 5.6 SP3 primarily focuses on incorporating feedback from customers and certified reseller partners using the 5.6 product stack in areas of quality, scalability, and deployability. This feedback has allowed us to provide several exciting new feature enhancements in this release in particular. More information about these enhancements can be found in the Release Notes for Service Pack 3.

**Availability**

Resellers can download the latest service pack by visiting the support section of the Computhink website, the service packs are available to download or can be obtained on CD. Customers interested in obtaining the latest service pack should contact their authorized Computhink Reseller.

**About Computhink**

Computhink provides best-in-class Enterprise Level Integrated Document Management (IDM) software and document-enabling integration solutions for secure enterprise information sharing, targeting Enterprise class customers operating on Windows, LINUX, or Novell platforms.
