Computhink's Cost-Effective, Enterprise-Level Software Continues to Improve with ViewWise 6.2.

Lombard, IL, June 30, 2009 – Today, Computhink announced the release of the latest version of its Document Management / Content Management Solution, ViewWise 6.2. This version extends the ViewWise workflow functionality, expands platform support, and adds or enhances over 20 features within the core product.

"Business Process automation is a highly sought after feature in today's ECM market," explains Vince Smolek, Director of Product Management for Computhink. "In ViewWise Version 6.2, the new improved workflow allows organizations to do more with less; improving ROI while raising the bar for task automation and employee accountability."

Along with workflow improvements, ViewWise 6.2 provides expanded E-mail integration options, support for the viewing / searching / printing of over 400 file formats, speedier PDF conversion, and expanded Linux support. Version 6.2 also adds support for Windows 2008 Server, Vista, and Microsoft SQL 2008. This latest version of ViewWise has been independently tested and designated the "Works with Windows 2008 Server" status from Microsoft®.

In the Small Business market of today, the Document Management demands of all organizations require an array of features normally reserved for the most expensive of solutions. ViewWise Version 6.2 improves on its well-received predecessor, and offers an enhanced feature set that all organizations require, regardless of size, at a cost-effective price.
