### **Seamless Export of Formatta® E-Forms to Computhink's ViewWise® Document Management Solution**

**Lombard, IL, May 29, 2009** – Computhink, Inc., a leader in providing Document and Content Management Solutions for small to mid-sized (SMB) organizations, has officially announced that their ViewWise Document Management Solution has support for Formatta Corporation's latest version of their e-forms software-based product, E-Forms Manager 7.2.

"Computhink strives to integrate with quality software products that act to expand our overall Enterprise Content Management solution and bring new benefits to our customers," said Director of Product Management, Vince Smolek. "Formatta provides a strong data collection and business process solution that we feel does exactly that."

Taking advantage of the Formatta export options, Formatta E-Forms and metadata can now be seamlessly stored into the ViewWise Document Management solution through the use of Computhink's Automated Input Processor. This allows customers to enjoy a complete e-form and document management solution. Empowering customers with the ability to easily and effectively capture, verify, approve, and integrate data, as well as heighten document security and control, reduce costs, comply with federal regulations, reduce retrieval times, and increase productivity and accountability while working off a central repository.

"Formatta is excited to form a strategic partnership with Computhink as a leading ECM / Document Management solutions provider. The integration of Formatta's E-Forms application with ViewWise will help address customer business challenges of manually capturing, managing and integrating data associated with critical business transactions. Formatta's E-Forms product suite is a valued-added, complementary solution to ViewWise creating a fast, easy and affordable solution that will provide incremental revenue to the Computhink channel," said Grant Wagner, President and CEO of Formatta.

The flexibility of Computhink's ViewWise Document Management Solution is one of many benefits of the software. As a document management solution, ViewWise offers complete document management / enterprise content management functionality that rivals solutions selling for several times the cost. ViewWise offers secure desktop and web access to content, storage management, retention, workflow, document imaging, email archiving, Microsoft Office and GroupWise integration, support to view, search, and print from over 400 file formats, and much more.

## About Formatta

Formatta software quickly and efficiently extends the reach of applications to all users so organizations have the information they need to operate more efficiently and effectively. other solutions solve document/record management and business process management problems, they do not efficiently capture data from paper and paper equivalents (word, .pdf, etc.) and move it to the business applications that need it most. More than just an electronic version of a paper form, Formatta is specifically designed to quickly capture, verify, and move data to mission-critical applications. Formatta provides the most affordable, scalable, and easiest to implement, use, and maintain e-forms data capture and integration solution. Enterprises and government agencies alike rely on Formatta to improve service to customers, employees and partners and make better business decisions, while improving operational efficiency. Formatta is headquartered in the greater Washington, DC area. More information about Formatta is located online at [www.formatta.com](http://www.formatta.com).
