## ViewWise Named “Best Channel Product”.

**Lombard, IL, August 31, 2009** – Computhink, Inc., a leader in providing Document and Content Management Solutions to small to mid-sized (SMB) organizations, today announced the recognition of their best-in-class document management software, ViewWise, as a “Best Channel Product” Award recipient in the September 2009 issue of *Business Solutions* magazine. The award was for the ECM and Data Capture Software and ECM Software - SMB categories, in which Computhink ranked higher in average score than its main competition.

Results were tabulated by averaging ratings given in the following five categories: Richness of Features/Functionality, Product Reliability/Durability, Ease of Integration, Ease of Upgrade, and VAR’s Ability to Service. The survey was conducted on the Web, which allowed for a staggering 19,833 votes to be cast. In partnering with Penn State University, *Business Solutions* collected votes from BSM Subscribers over a three-week period from late-May until mid-June 2009.

“We pride ourselves in our continuous efforts to keep ViewWise updated and responsive to the needs of the many end-users our channel partners have helped turn into our customers,” said John Stelmach, President/CEO of Computhink. “This recognition comes directly from our channel partners and their customers with whom we have worked with to meet their requirements. We will always look to improve our ViewWise Document Management Solution, and are very pleased to have received this recognition from those using our product.”

Included with the results were quotes from VARs familiar with each product. The quote included with ViewWise reads, “ViewWise from Computhink has been a fantastic product rich with features that are included with the software, not a continuous list of add-ons that cost our customers.”

The flexibility of Computhink’s ViewWise Document Management Solution can be directly credited for the well-deserved satisfaction with Computhink’s Channel Program. Through the use of its Application Enabler, ViewWise is able to integrate with almost any software program, which yields a popular selling tool. In addition, competitive pricing, a dedicated marketing team, and other product features such as Workflow, E-mail Archival, Front End Capture, Electronic Signature (Signwise) will continue to keep ViewWise and Computhink atop the industry.
