Computhink Named “Best Channel Vendor 2010”

Lombard, IL, January 6, 2010 – Computhink, Inc., a leader in providing Document and Content Management Solutions to small to mid-sized (SMB) organizations, announced today their recognition as a “Best Channel Vendor” in the January 2010 issue of *Business Solutions* magazine. The award was for the ECM and Data Capture Software category, in which Computhink ranked higher in average score than its main competition.

Results were tabulated by averaging ratings given in the following seven categories: Service/Support, Channel Friendly, Channel Program, Product Features, Product Reliability, Product Innovation, and Adequate Value-Added Reseller (VAR) Margins. The survey was conducted on the Web, which allowed for a staggering 12,073 votes to be cast. In partnering with Penn State University, *Business Solutions* collected votes from VARs over a one-month period in late September through early October, 2009.

“This is the second straight year that we have been chosen above the competition to receive this award,” said John Stelmach, President/CEO of Computhink. “The credit goes out to our entire team for the creation of such a user-friendly product as well as the effort to maintain and support this product and the VARs with whom we’ve worked so hard to succeed. This is proof that our methods are successful and will continue to be throughout 2010 as we stay ahead of the pack.”

The flexibility of Computhink’s ViewWise Document Management Solution can be directly credited for the well-deserved satisfaction with Computhink’s Channel Program. Through the use of its Application Enabler, ViewWise is able to integrate with almost any software program, which yields a popular selling tool. In addition, competitive pricing, a dedicated marketing team, and other product features such as Workflow, Email Archival, Front End Capture, and Electronic Signature (Signwise) will continue to keep ViewWise and Computhink a frontrunner in the industry.
