## Computhink Announces ViewWise Web Access

**Lombard, IL, July 22, 2010** – Computhink, Inc., a leader in providing Document and Content Management Solutions to small to medium-sized organizations, has officially announced the release of their new ViewWise Web Access Client for the ViewWise Document Management Solution.

Computhink's ViewWise Document Management software provides customers with a complete solution for capturing, managing, securing, and sharing their electronic content. Adding the Web Access client, built on top of their new ViewWise Web Services, gives ViewWise customers additional access to content whenever and wherever a Web browser is available.

The Web Access client allows customers to search for and download content using any one of the more popular web browsers available including, but not limited to, Mozilla Firefox<sup>®</sup>, Microsoft Internet Explorer<sup>®</sup>, Apple Safari<sup>®</sup>, Google Chrome<sup>®</sup>. This flexibility allows access from not only a PC, but many of the mobile devices available today. The list of compatible products includes the following and many more: Apple's iPad<sup>®</sup> and iPhone<sup>®</sup>, Blackberry<sup>®</sup> mobile devices, Palm<sup>®</sup> mobile devices, the Motorola Droid<sup>®</sup>, and HTC<sup>®</sup> products such as the new Evo 4G.

"With the release of technology like the iPad, iPhone, and Droid-based phones, both customer's and the information-consuming public's expectations for accessibility have increased," stated Vince Smolek, Director of Product Management. "Our latest Web client was built to satisfy those expectations by allowing organizations to easily share content with their employees, customers, and the public."

The ViewWise Web Access interface is highly customizable and built using standard Web architecture, allowing for easy integration with an organization's existing Website or portal.

As a document management solution, ViewWise offers complete document management / enterprise content management functionality that rivals solutions that sell for double or triple the cost. ViewWise offers secure desktop and Web access, storage management, retention, workflow, document imaging, email archiving, Microsoft Office and GroupWise integration, the ability to view, search, and print from over 400 file formats, and much more.

For more information on ViewWise Web Access, or to schedule an informational demonstration, please visit the [Computhink Website](#).
