

ViewWise® - The Document Management Choice for Manufacturing!

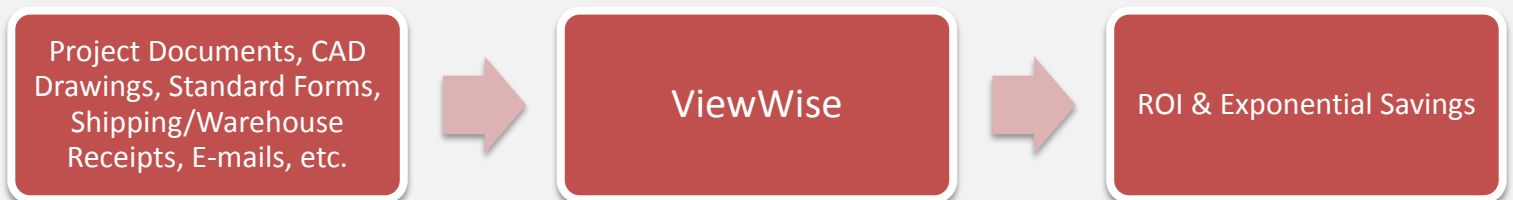

Manufacturers must increase their overall business efficiency and reduce costs in order to compete in today's economic environment. Pressure to reduce product life cycles, improve quality, enforce standards, and comply with regulations makes it vital for this sector to implement a Content Management solution such as **Computhink's ViewWise** in order to streamline business processes, improve customer service, reduce costs, and be more compliant with federal and industry regulations.

ViewWise inherently allows for shipping / warehouse receipts, CAD drawings, letters, standard forms, reports, and Emails to be archived in one central, secure database for quick and easy access to documents with a few keystrokes. Eliminate time routinely wasted tracking down files and re-creating lost content. Customer or vendor inquiries are answered within seconds; not days or weeks. ViewWise allows for users (with proper security privileges) to find, file, and share all of your organization's documents almost instantly.

ViewWise and Workflow are advantageous in various areas for manufacturers: Shipping, Warehousing, Inventory Control, General Accounting, Accounts Payable and Receivable, Human Resources, Purchasing, Compliance, and more!

Recognized Manufacturing Benefits Include:

- Establish a central repository with access security privileges assigned.
- Automate business processes and route documents and files.
- Review Audit trails for user and document activity performed in the system.
- Facilitate collaboration from remote sites by providing online access to information and resources.
- Reduce paper, copy and storage costs.
- Create annotations, redactions, revisions and versions.
- Improve Compliance with federal and industry regulations.
- Increase customer service by providing online access of information and resources to branch offices, remote workers, partners, and vendors.

THE EASE OF USE IS EXTRAORDINARY!

The easy-to-use interface allows your organization to hit the ground running with ViewWise. Using a familiar structure and adhering to the rules of popular Microsoft software, your employees will have no problem utilizing ViewWise nearly immediately.

For More Information
